QUICK TIPS

What's An Emergency?

An emergency is any incident, whether natural, technological, or human-caused, that requires responsive action to protect life or property.

1. **Conduct a Risk Assessment**
2. **Develop an Emergency Management Plan**
3. **Be Prepared with Supplies and Equipment**
4. **Review and Revise your Emergency Management Plan**
5. **Follow Guidelines of Local Emergency Management Officials**
6. **Practice!**
